- Webinar Trade Show
- Government & Public Utilities
- Fuel Stations

Software's

signosign/Universal

- Platform-independent application
- Seamless integration with existing system
- Extensive interfaces
- Secure, server-based application
- Location-independent remote signatures
- Signature capture via browser using signotec device

signosign/2

- Open, edit and sign PDF documents
- Windows software
- Adapt signing processes with powerful automation tools
- Highest security features
- Advanced electronic signature according to ISO standard

Signotec Biometric And RSA Tools

Loading Signature Data In SignData Format (.Sdb)

signoSign For Apple IOS / Android

Open PDF Documents From Other Apps.

Signotec Adobe Acrobat Plug-In

Capture A Probative, Handwritten Signature Incl. Biometric Data.

Signotec SignoFileGrabber

Automatic Opening Of Incoming PDF Documents

Software's

Customer On Boarding System

- Emirates ID Verification
- Effortless Data Entry
- Real-time Authentication
- Secure Data Handling
- Automated Verification Process
- Integration Flexibility
- Customization
- Analytics and Reporting

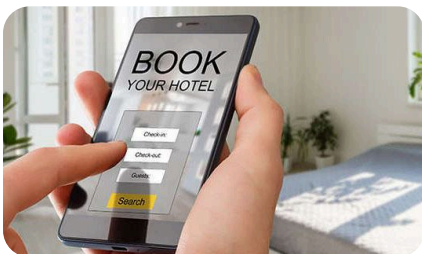

Smart Price Checker

- Scan product barcodes to view pricing details
- Display both standard and exclusive member prices
- Suggest similar or complementary products
- Display ongoing promotions and exclusive deals
- Showcase customizable area-specific offers

Cheque Parser System

- Optical Character Recognition (OCR)
- MICR (Magnetic Ink Character Recognition)
- Image Capture
- Data Extraction
- Verification and Validation
- Endorsement Recognition
- Data Correction and Cleanup

Tour Management System

- Intuitive, user-friendly booking process for customers.
- Easy navigation and minimal steps to complete a reservation.
- Web-based platform for desktop and mobile devices.
- Mobile app for on-the-go bookings.
- Ability to manage and update tour schedules, availability, and capacity.
- Secure payment processing with various payment gateways.

Custom E-Commerce System

- Product Management.
- User Experience.
- Shopping Cart and Checkout.
- Order Management.
- Payment Processing.
- Customer Management.
- Analytics and Reporting.

Customer Survey Management System

- Real-time Feedback.
- Customizable Surveys.
- Secure Data Handling.
- Compliance Assurance.
- User-friendly Interface.
- Integration Flexibility.
- Efficient Data Collection.
- Analytics and Reporting.

Software's

Inventory Management System

- Inventory Tracking
- Multi-Location Support
- Barcoding and RFID
- Inventory Valuation
- Reorder Point and Safety Stock
- Supplier Management
- Demand Forecasting
- Inventory Optimization

Stock Taking System

- Barcoding and QR Code Support
- Inventory Tracking
- Multi-location Support
- Inventory Valuation
- Integration with existing system
- Mobile Accessibility
- User-Friendly Interface

Valet Parking Management System

- Vehicle Tracking
- Digital Ticketing
- Automated Valet Request System
- Multi-Location Support
- Reporting and Analytics
- User-Friendly Interfaces
- Guest Notifications
- Payment Integration
