

# CASSIDA 6650 Series

WITH VALUCOUNT™

## PROFESSIONAL CURRENCY COUNTER

- ▶ Constant count quality
- ▶ Upgraded mechanism for Double-note detection
- ▶ Operation ease
- ▶ Value calculation and more

# CASSIDA 6650 Series

WITH VALUCOUNT™

## PROFESSIONAL CURRENCY COUNTER

PRODUCT SPECIFICATIONS	6650 Series
Counting speed, notes/min	1000
Hopper capacity, notes	400
Stacker capacity, notes	300
Bill density detection	+
Bill size detection	+
UV (ultraviolet)	+
MG (magnetic)	+(UV/MG mod)
Count error detections	Double Half Chain
Batch, notes	10,20,25,50,100 1-999
Remote display	Optional
Display type	LED, 4/3
Power input, V/Hz	220/50
Power consumption, W	< 80
Dimensions (W*H*D), mm/inches	280*250*150 / 11*9.8*5.9
Weight, kg/lbs	5/11

### ► UPGRADED MECHANISM FOR DOUBLE-NOTE DETECTION

The Cassida 6650 Series is equipped with high-speed infrared detection that detects "Double" notes, and notes that were assembled by pieces. When counted, suspicious bills always appear on top of the counted bill stack in the stacker and not included in the total sum. This detection can be switched off by users if necessary.

### ► COUNTERFEIT DETECTION

Ultraviolet (UV and UV/MG models), and magnetic sensors (UV/MG model) are able to detect a wide range of counterfeit bills. Once a counterfeit is detected, the Cassida 6650 Series stops the count and dispenses the suspect bill into its stacker for removal. Perfectly configured magnetic detection allows the user to check bills effectively with a counting speed up to 1000 bills per minute.

### ► VALUE CALCULATION AND MORE

ValuCount™ uses the denomination selected by the user to calculate the dollar value of the count. By activating ValuCount™ in the ADD mode, users can count different denominations while keeping track of the total value.

### ► CONSTANT COUNT QUALITY

The counting sensors are attached to metal frame providing constant count quality without any failures during the life of the machine. New or old banknotes will be counted at the same rate.

### ► OPERATION EASE

The comfortable control panel enables new experienced users alike easy control and operation of the Cassida 6650 Series. All the necessary detections can be easily switched off if needed.
