

bRite Standard Quick and Handy - Mobile Smartness

Quick Workflow

- The quick price and function keys on the advanced membrane keyboard speed up the workflow and reduce operation time.
- An exchangeable preset card enables the user to customize the 16 preset keys.

Easy to Read

- The three displayed lines are very clear and easy to read.
- The backlight can be switched on or off according to the ambient lighting and to save power the scale automatically goes into the sleep mode when not in use.

Ergo Grips

Two ergonomic grips on the lower side of the scale combined with its light net weight of only 4.2kg make it extremely easy to transport.

Mobile Business Through Battery Support

For complete mobility, the scale can be run via rechargeable battery. Every scale order includes a rechargeable battery with a long-lasting operation time of up to 180 hours.

Cable Case

With built-in cable storage, the work area is kept tidy, transportation is simple and the risk of mislaying the power cable is eliminated.

bRite Standard

bRite is a stylish, portable retail scale suited to a range of retail environments such as open markets, mobile business or smaller specialty shops. Its robust yet lightweight construction, including a high quality stainless steel plate, make it perfect for these kinds of environment where food hygiene, portability and sturdiness are prerequisites.

Coupled with its high quality weighing technology this makes the bRite a reliable and long lasting investment. Using the scale is also fast and effortless thanks to its ergonomic keyboard layout and simple user interface - thus speeding up customer service in all applications.

Available as compact or tower version, this scale is an artwork that brings in line a slim silhouette design with a trapezoidal platform shape. Its black soft-rubber feet emphasize stability and show the groundedness of our bRite series that are all part of a harmonized colour and industrial design conception between housing, keyboard, display, plate and feet architecture.

bRite Standard Price Computing Scale

Reliable Performance

Mettler-Toledo's long-term experience in engineering precise weighing instruments ensures fast customer transactions and long-lasting performance. bRite stands for customer-friendly functionality and operation.

High Quality Standards, Safety and Environmental Care

bRite includes high quality weighing technology and is approved and certified by weights and measures authorities. This means that it maintains the highest accuracy and allows quick data signal processing. This precision scale complies with the latest industry standards including 10V/m OIML regulations - a real investment in electro magnetic security ahead of time. Additionally, features like the power adapter with Power Efficiency Level V and RoHS compliant components show our commitment to electronic safety, accuracy and environmental care.

Robust and Mobile

Items of various shapes and sizes can be weighed easily thanks to the large, robust stainless steel weighing plate. The high quality of the stainless steel means it is water resistant and easy to keep hygienic. For even greater protection optional scale and PLU covers are available. Given the fact that every scale order already includes a rechargeable battery, mobile business is possible whenever, wherever.

Accessories

- Lead acid rechargeable battery
- Plastic cover for pan
- Plastic cover for housing
- Deep plate
